SUMMARY

Forward Deployed Engineer at tridorian, building agentic AI systems with Google Cloud customers alongside Solutions Architects. Recent George Brown grad (Computer Programming & Analysis, Dean's List) with Google Cloud Professional ML Engineer and Professional Cloud Architect certifications, plus an Azure administrator background.

Hands-on full-stack and ML work: a 5-person capstone marketplace where I was the top contributor (Supabase auth, migrations, Docker, integration), a local RAG pipeline, and production-minded Python/ML projects.
